## SUMMARY

Adaptable student with knowledge of web development, configuration management, and database design and expertise in planning, designing, and implementing high-quality websites. Skilled in HTML, CSS, JavaScript & React. Proven ability to quickly understand requirements, create innovative solutions, and complete projects within tight deadlines. I can be relied upon to help your team achieve its goals.

## TECHNICAL SKILLS

**Programming Languages:** C /C++, Java

**Web Development:**

- Frontend: HTML, CSS, JavaScript, React.js, Tailwind, jQuery, Bootstrap
- Backend: Node.js, Express.js

**Databases:** SQL Server, MongoDB

**Core Concepts:**

- Object-Oriented Programming (OOP) in Java, Data Structures and Algorithms, Computer Networks

## PROFESSIONAL EXPERIENCE

### FULL STACK DEVELOPER

( 2023 - 2024)

Onetick Technologies | Escorts Mujesar , Faridabad

- Created comprehensive web models and prototypes (physical, interface, logical, data) that accelerated project planning and reduced development time by 20%.
- Stayed ahead of industry trends by continuously upgrading skills through conferences and workshops, contributing to the adoption of modern web technologies in team projects.
- Developed robust and scalable databases that enhanced the performance and reliability of web applications .

### SOFTWARE ENGINEER

(FEB 2025 - APRIL 2025)

Bridge Group Solutions | Pratibha Tower, Gurgaon

- Developed and maintained web applications using HTML, CSS, JavaScript, and React.js.
- Increased application performance by 30% through frontend optimization and efficient state management in React.
- Reduced bug count by 25% by proactively identifying and fixing issues during testing and code reviews.
- Delivered a standalone project module ahead of schedule, demonstrating strong ownership and time management.
- Enhanced user experience by implementing responsive UI designs, leading to a 40% drop in bounce rates during testing.

## PROJECTS

### Recipe App

MERN

Developed a full-stack Recipe App using Next.js, Express.js, and MongoDB, featuring user authentication with Clerk and seamless integration with both a custom meal API and the Database.

Features:

- Implemented dynamic recipe search, detailed view pages, and interactive features like likes/dislikes, paginated ingredients, instructions, and video tutorials—all styled with Tailwind CSS.
- Enhanced user experience with a responsive UI, smooth transitions, dark/light mode compatibility, and authentication-based features like saving favorites and personalized interactions.

### Image Text Recognition and Translator

HTML, CSS,JS

Built a web application using JavaScript that extracts text from images and translates it into multiple languages.

Features:

- Text Extraction: Implemented OCR (Optical Character Recognition) in JavaScript to extract text from uploaded images.
- Language Translation: Integrated real-time translation functionality using translation APIs.
- User Interface: Developed a user-friendly interface for seamless image uploading and text display.

### E Commerce Website

MERN

Designed and implemented a responsive frontend using [React.js, Tailwind, Bootstrap]. Built the backend using Node.js and Express.js, managing server-side logic and API integration.

Features:

- Implemented secure login and registration using JWT (JSON Web Tokens) or sessions.
- Enabled Create, Read, Update, and Delete functionalities for user data or products.

EDUCATION AND CERTIFICATION
